SUMMARY

I am a computer science student with three years of experience in academia, complemented by hands-on exposure to office environments and web development projects. Passionate in the accessibility of technology, XR reality development, and Human Computer Interaction. Eager to create inclusive digital experiences that make technology accessible for all users.

EXPERIENCE

Brand Marketing Intern

Bangor University

2023 - 2024 Bangor, United Kingdom

Tasked with identifying, sorting and editing photos and videos giving them identifiable tags, alternate tags. Through this I organised over 3,000 items given to me into easily findable locations for wide use to the university.

- Implemented a new university wide digital asset library for brand marketing.
- Coordinated with teams within the brand marketing team to

deliver a fully organised system that when handed over could be used with ease.

Social Media Intern

Bangor University

2025 - Present Bangor, United Kingdom

Tasked with the social media pages used by Bangor University's School of Computer Science and Engineering to increase our awareness of prospective students and notify current students with events ongoing within the university.

- Recorded Events and edited videos to match branding guidelines set by employer.
- Sourced valuable methods of increasing reach to prospective students through using common trends used throughout social media.

EDUCATION

Integrated master's degree in computer science (MCOMP)

Bangor University

2022 - Present Bangor, United Kingdom

LANGUAGES

English
Native

Welsh
Beginner

Gym Activities

Enjoy pushing myself in all workouts, particularly weightlifting. It enhances my determination, endurance and safety.
